EXECUTIVE DIRECTOR

Kim L. Maher

Ms. Lucy G. Neal  
Great Explorations  
1120 4th Street South  
St. Petersburg, FL 33701

Dear Lucy:

I have recently been in contact with my colleague Matt Kaser who mentioned that he had spoken with you regarding some possible exhibit design work. I wanted to take an opportunity to put in a good word for Matt. He did some very fine work for us in master planning and design of exhibits for our new Museum of Discovery and Science which opened last November. If you want any information about specific exhibit projects he worked on with us, please feel free to call me at 305/467-6637, ext. 301.

As we were planning this new Museum, we had a long and productive relationship with Matt Kaser, both when he was based in Dallas and also many months of onsite association here in Fort Lauderdale. He works independently, creatively, and dependably to get the job done. Do feel free to call me if you need any further information about the work he completed for us.

Sincerely,

Kim L. Maher  
Executive Director
